

Frequency Controlled Chemical Injection Pump

RENTAL

Frequency Controlled Chemical Injection Pump – ATEX approved

Benefits:

- Frequency Controlled (allowing for a better range)
- Integrated Emerson flowmeter
- Built-in accumulator
- Integrated double pressure sensor for failsafe operation
- All stainless steel
- 2.7.1. frame
- Digital touch screen for registration of max pressure, flow, and total volume

Application:

- Injection of liquids and chemicals (chemical injection)

Specifications:	
Dimension	W:100 L:140 H:170
Weight	1 ton
Pump	Lewa
Pressure ranges	330 bar
Flow	0,2 - ca 60 liters/hour
HP Filter	HC9020FKP4H
Inlet Filter	Pall Stav Filter - 10 bar @ 20 degrees
Motor	5,5 Kw
Voltage	400/690

Cable	40 meter
HP Outlet/ Inlet	Parker 25 mm

ingenious simplicity
